

Elect Chris Smithson!

Chris Smithson has demonstrated the integrity, energy, commitment and dogged determination to lead The Southern Pines Town Council. Like no other, Mr. Smithson has earned the title of Mayor. Through eight years on The Town Council, Mr. Smithson has spent thousands of hours outside Council meetings studying the issues, listening to his constituents, evaluating long range implications and voting to support the Town Plan to protect, preserve and grow our town and community.

Mr. Smithson has at times put himself in adverse position to the local old boy network and various special interest groups. By truly studying the issues, Mr. Smithson has a history of focusing on not only present impact, but how the Council's decisions will effect the community in the future. He has been true to the planning process and ensuring that others on The Council are mindful of their responsibility to work within the plan created by and for the community.

In these uncertain economic times, it is critical that our town be led by one who exercises both discipline and critical thinking. Mr. Smithson has a documented history of deploying these qualities. He can be counted on to vote with reasoned analysis to support growth that is consistent with the long range interest of preserving the special character, history and values that define this wonderful town.

Elect Chris Smithson Mayor of Southern Pines. The Southern Pines community needs the leadership and proven stewardship of Chris Smithson.
